

Addition: Problem Solving

LO: To use solve problems involving additions.

I can understand that addition is communicative.

I can represent addition problems as number sentences and by using part-part-whole.

I can use a variety of methods to solve addition problems.

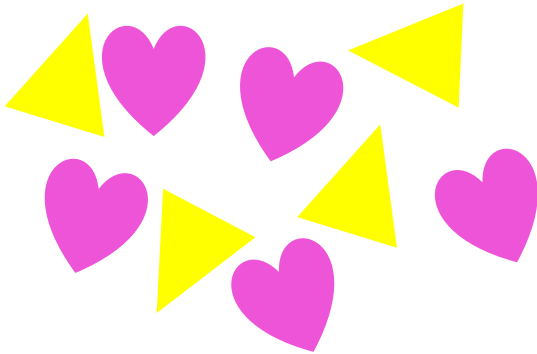

Starter activity

There are 5 green cars and 3 red cars. How many cars are there altogether?

$$\square + \square = \square$$
$$\square = \square + \square$$

Reasoning

Which statement is true?

A: 3 is a part,4 is a part and the whole is 8.

B: 6 is a part,2 is a part and the whole is 10.

C: 4 is a part,5 is a part and the whole is 9.
